FASTEST CLASSROOM LOCKDOWN

Code-Compliant Door Barricade
No Training Required

EASY

Simply press the red button to lock

FAST

Instant room lockdown

COMPLIANT

100% life safety and
ADA code-compliant

SAFE

Single motion exiting –
no one is ever locked in

Questions to Ask

- How do you currently secure your facility?

- In the event of an emergency, how quickly is a lockdown initiated?

- Will you need to place something on the door to barricade the classroom?

- Who can secure the classroom currently in the event of an emergency?

- Can a student or teacher get trapped in a classroom and not be able to exit freely?

Red Button Locks allow anyone in the classroom to lockdown the room easily, instantly, and safely.

Press the red button - no key or opening the door required.

Free exiting at all times. No one is ever trapped in the room.

Meets all ADA and life-safety codes.

Fast. No training or special knowledge required.

CREATE SAFE & SECURE CLASSROOMS

SAFEBOLT™
Code-Compliant
Barricade Lock

The fastest way to barricade a classroom door while maintaining 100% code compliance. SafeBolt retrofits to existing cylindrical lever locks, making it an affordable and easily installed option to boost security.

QID™
Quick Intruder
Deadbolt

Like the SafeBolt, QID allows rooms to be immediately secured by pressing the red button, projecting a deadbolt and locking the exterior lever. QID is a fully functioning mortise lock and is available in an electrified version.

LEXI™ LOCKDOWN
Multi-Door
Electric Lockdown

Enhance safety and security in larger multi-door spaces. Control trim works with all major manufacturers exit devices and allows you to bring instant keyless lockdown to your otherwise mechanical hardware.
